PROFILE

Experienced electrician with 8 years of expertise in residential and commercial projects. Known for delivering tailored electrical solutions in diverse settings, from homes and offices to industrial complexes. Committed to safety, efficiency, and exceeding client expectations. Let's power up your home or business together!

WORK EXPERIENCE

ES & G Services, Falls Church VA 2024
Electrician

- The renovation of several houses and the Farmside Restaurant

Kabul Restaurant & Cafe, Fredericksburg VA 2022 - 2024
Electrician

- The renovation of Kabul restaurant and café located in Fredericksburg involved overseeing the installation of all interior lighting, emergency lights, and outlets. Managed the replacement of parking lights, modernized panels and breakers, facilitated the addition of new wiring, oversaw the installation of security cameras, and implemented new circuits to accommodate the restaurant's machinery upgrades.

Absolute Electric, Sterling VA 2021 - 2022
Electrician

- Installed recessed lighting to enhance aesthetics and functionality in homes and installed GFCI receptacles for safety in kitchens, bathrooms, and outdoor areas. Also installed dimmer switches and wired ceiling fans for improved comfort. Troubleshoot electrical issues, designed and installed dedicated circuits for high-power appliances, and wired new homes and renovations to meet safety standards. Additionally, upgraded electrical panels to handle increased loads and replaced circuit breakers to ensure safe operation.

ENGIE, France 2016 - 2021
Electrician

- Installing and wiring electrical panels and breakers, maintaining commercial lighting and electrical systems, ducting, cable tray installation, cabling of CAT 5/6 and server racks, and EV installation.
